SUMMARY

I am a dedicated Front-End Developer with a strong focus on React.js and extensive experience in building dynamic and responsive web applications. My expertise includes modern state management libraries like Redux and Flux, as well as Firebase integration for real-time data management, ensuring the delivery of scalable, user-friendly solutions.

EXPERIENCE

I.T. Instructor | Aptech Learning | June 2023 - Present

Instruct students on HTML, CSS, JavaScript, Bootstrap, React.js, Node.js, Tailwind CSS, and Express.js, as well as state management with Redux.

Develop and mentor students in the MERN stack (MongoDB, Express.js, React.js, Node.js), along with APIs integration, preparing them for modern web development challenges.

EDUCATION

Bachelor of Computer Science | University of Karachi | 2020 - 2023

Intermediate – Pre Engineering | SM Science College | 2017 - 2019

TECHNICAL SKILLS

Front-End Development: React.js, Next.js, JavaScript, HTML, CSS, Bootstrap, Tailwind CSS, Material UI.

State Management: Redux, Context Api

Back-End Development: Node.js, Express.js, PHP, Laravel

Database: Mongo DB, MYSQL

Full-Stack Development: MERN Stack (MongoDB, Express.js, React.js, Node.js)

Version Control: Git

Web Services: REST full APIs

Projects

Crime Report | Aug 2024 | [Github Link](#)

Developed a full-stack crime reporting portal using the MERN stack, integrating Multer for file uploads and NodeMailer for OTP verification. The application enables users to register, add crime reports, like or dislike other posts, and comment on reports. Additionally, it features a pie chart visualization to display region-wise crime statistics, providing insights into crime distribution.

GoodShop | June 2024 | [Github Link](#)

Developed an e-commerce platform using the MERN stack, designed for seamless product management and order tracking. The admin panel allows administrators to add new products, view all listed items, and manage customer orders efficiently. On the user side, customers can easily browse and add products to their cart, with the convenience of placing orders through a cash-on-delivery system, providing a user-friendly and streamlined shopping experience.
